

**BE SURE TO RUN INTERNET EXPLORER AS ADMINISTRATOR IF YOU NEED TO RETRIEVE FOOTAGE!!**

**Right click on Internet Explorer shortcut on desktop and click "Run as Administrator"**

HIKVISION: SAVING A RECORDING

1. Log into Hikvision with IP that was specifically configured for your DVR

2. Once the main screen comes up, click on "Playback"

3. Select which camera you want to review footage of. The Camera listed in Red Font is the currently selected camera
4. Use this tool at the bottom to select one screen to view videos

Tab's & OE	📷 🔍

- Using the Time Bar at the bottom, find which Time Segments you want to download. To do this, click and drag the bar left or right to the desired time period. Then press Play to review footage.

You can slow-forward or fast-forward the footage if needed.

If the times need to be more precise, use the + and - to increase/decrease time span

- Once the desired footage is found, note the specific time of each event. Then click on "Download"

A new window should pop up with a list of files from the footage.

#### Download by File

		Total 22 Items							<<	<	1/1	>	>>

Using the times that you noted earlier when reviewing the footage, check off which segments of video you would like to download (Note that there will be varying amount of PAGES depending on how much was recorded for that day.

7. When you've made your selection of files by checking the empty box at the beginning of each file name, click the "Download" button at the top. Once finished, you should see "Downloaded" by each file you wanted.
8. To view the files you just downloaded, by default footage videos are saved under your user folder in a folder labelled "USSCWeb"

For example, C:\Users\%Your User Name Here%\USSCWeb\DownloadFiles\%Date when you downloaded video%

These files are saved in .mp4 format. Please note that most versions Windows Media Player do not support this video format. Recommend VLC Media Player <http://www.videolan.org/vlc/index.html>

The image shows a screenshot of a web browser displaying the VLC media player website. The browser's address bar shows the URL [www.videolan.org/vlc/index.html](http://www.videolan.org/vlc/index.html). The website header includes the VideoLAN logo and a navigation menu with links for Home, News, VideoLAN, VLC, Projects, Contribute, Support, and Dev' Zone. A donation section on the right offers options to donate 4.00 € or 5.00 \$ via PayPal. The main content area features a large orange traffic cone icon on the left and a central text block that reads "VLC media player" followed by a description: "VLC is a free and open source cross-platform multimedia player and framework that plays most multimedia files as well as DVDs, Audio CDs, VCDs, and various streaming protocols." Below this text are links for "Features", "Screenshots", and "Skins". A prominent orange button with a green download arrow icon says "Download VLC" and specifies "Version 2.2.0 · Windows · 22 MB". A link for "Other Systems" is located below the button.
